# Goals

- Define Logic and Core Features of School-wide PBIS
- Evidence of impact on student outcomes
- Dissemination of PBIS in U.S.
- Merger with Social/Emotional Learning

# Purpose

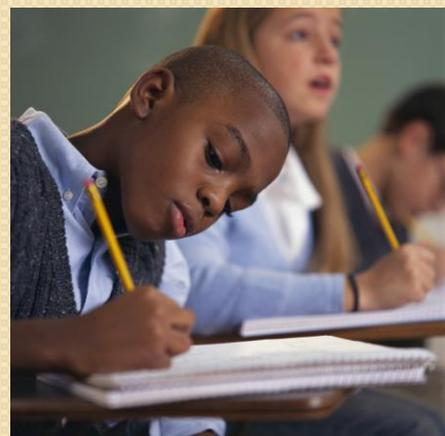

- The purpose of SWPBIS is to make schools more effective learning environments for all students.

# A Concern

Need to improve the effectiveness of schools with a wider range of students

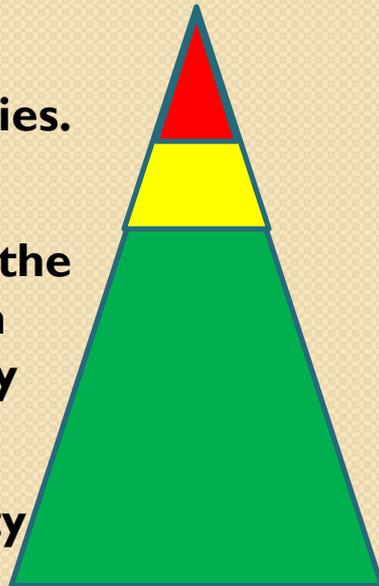

Calls for reform are increasing

Most calls for reform are broad in scope and are **NOT** tied to specific action

# School-wide Positive Behavioral Interventions and Supports (SWPBIS)

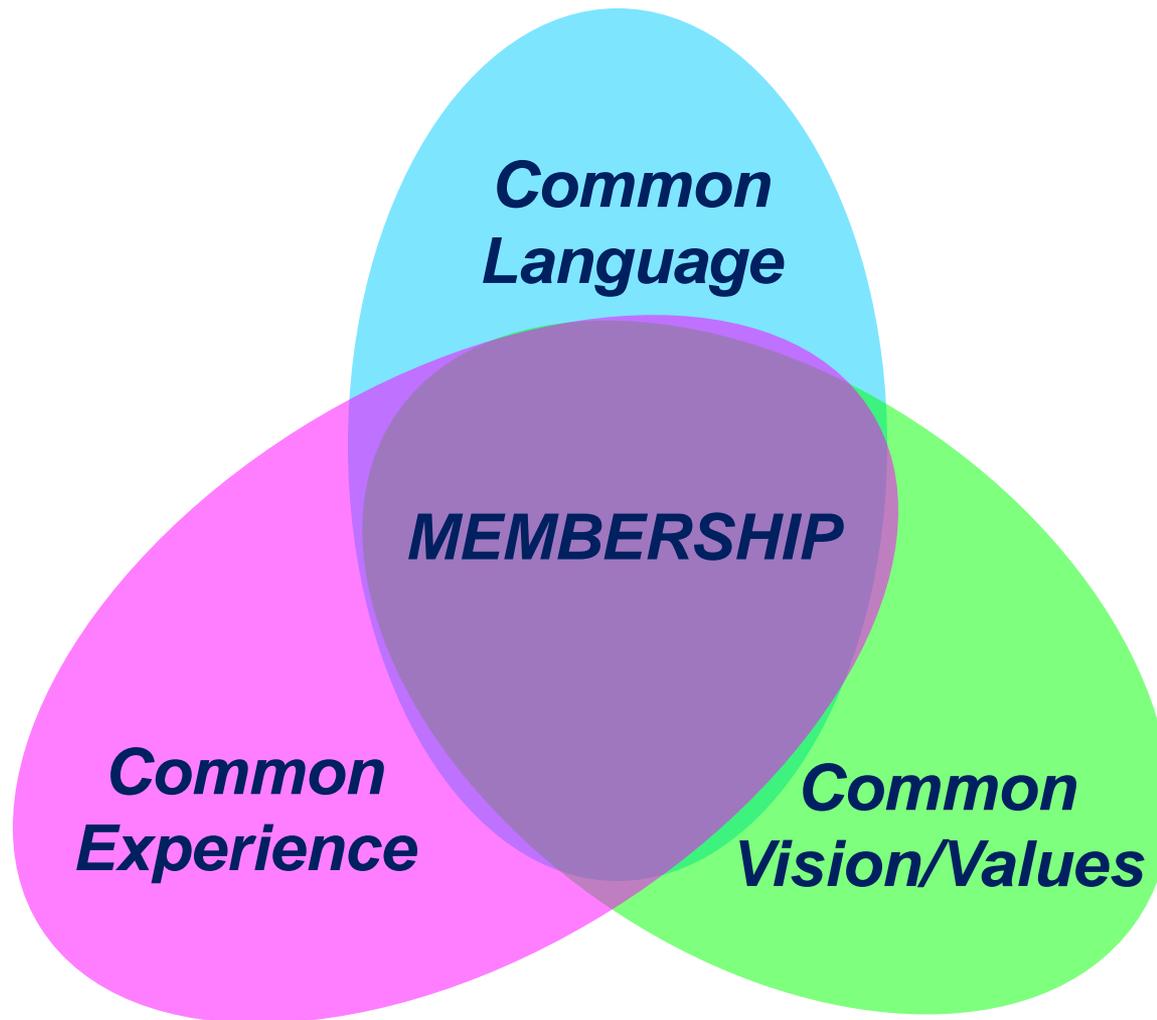

- The **social culture** of a school matters.
- A continuum of supports that begins with the **whole school** and extends to intensive, wraparound support for individual students and their families.
- Effective practices with the **systems** needed for high fidelity and sustainability
- **Multiple tiers** of intensity

# What is **School-wide Positive Behavioral Interventions and Support**?

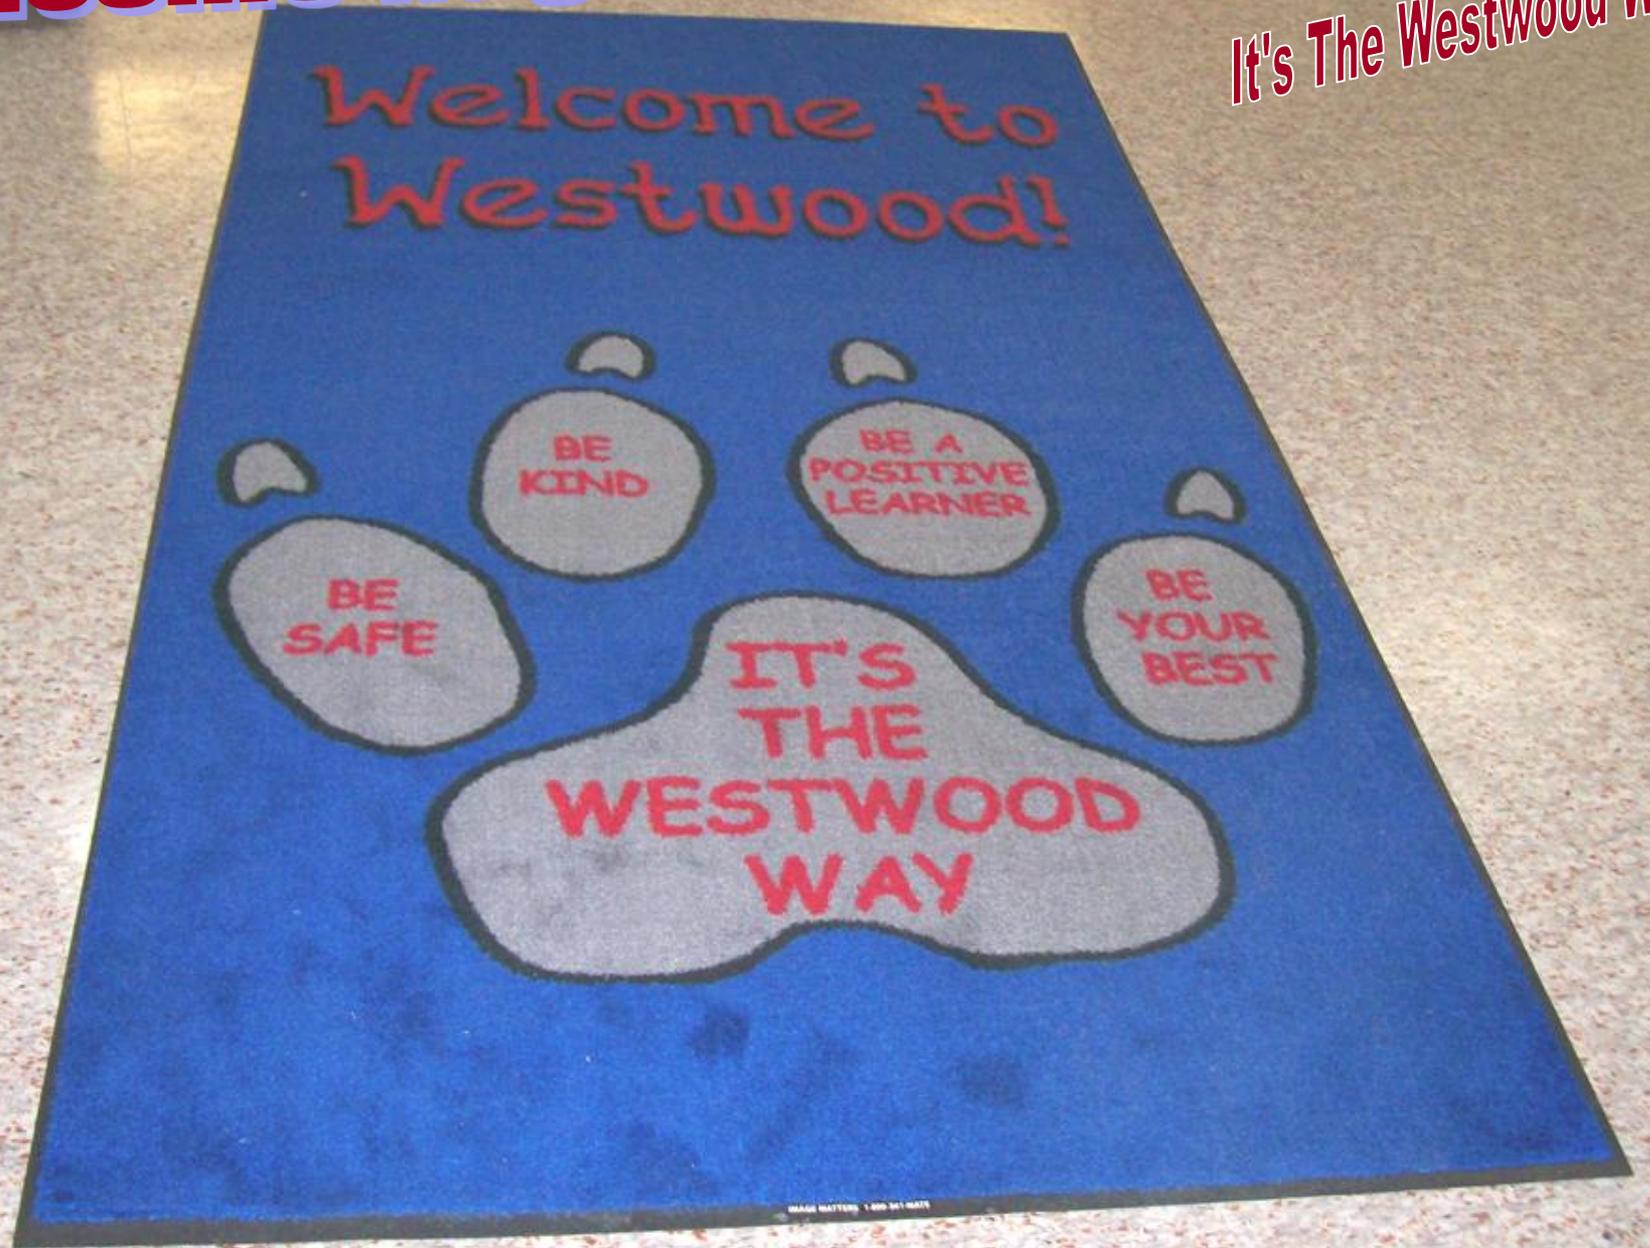

- **S**chool-wide Positive Behavioral Interventions and Support (SWPBIS) is a multi-tiered **Framework** NOT a specific Curriculum
- Establishing the **social** environment to be an
- **Acknowledge** positive behaviors
- Arrange consistent **consequences** for behaviors
- **Classroom** linkage of behavioral and academic supports
- On-going **collection and use of data** for decision-making
- **Continuum** of intensive, individual intervention supports.
- Implementation of the **systems** that support effective practices

# Supporting Social Competence, Academic Achievement and Safety

School-wide PBIS

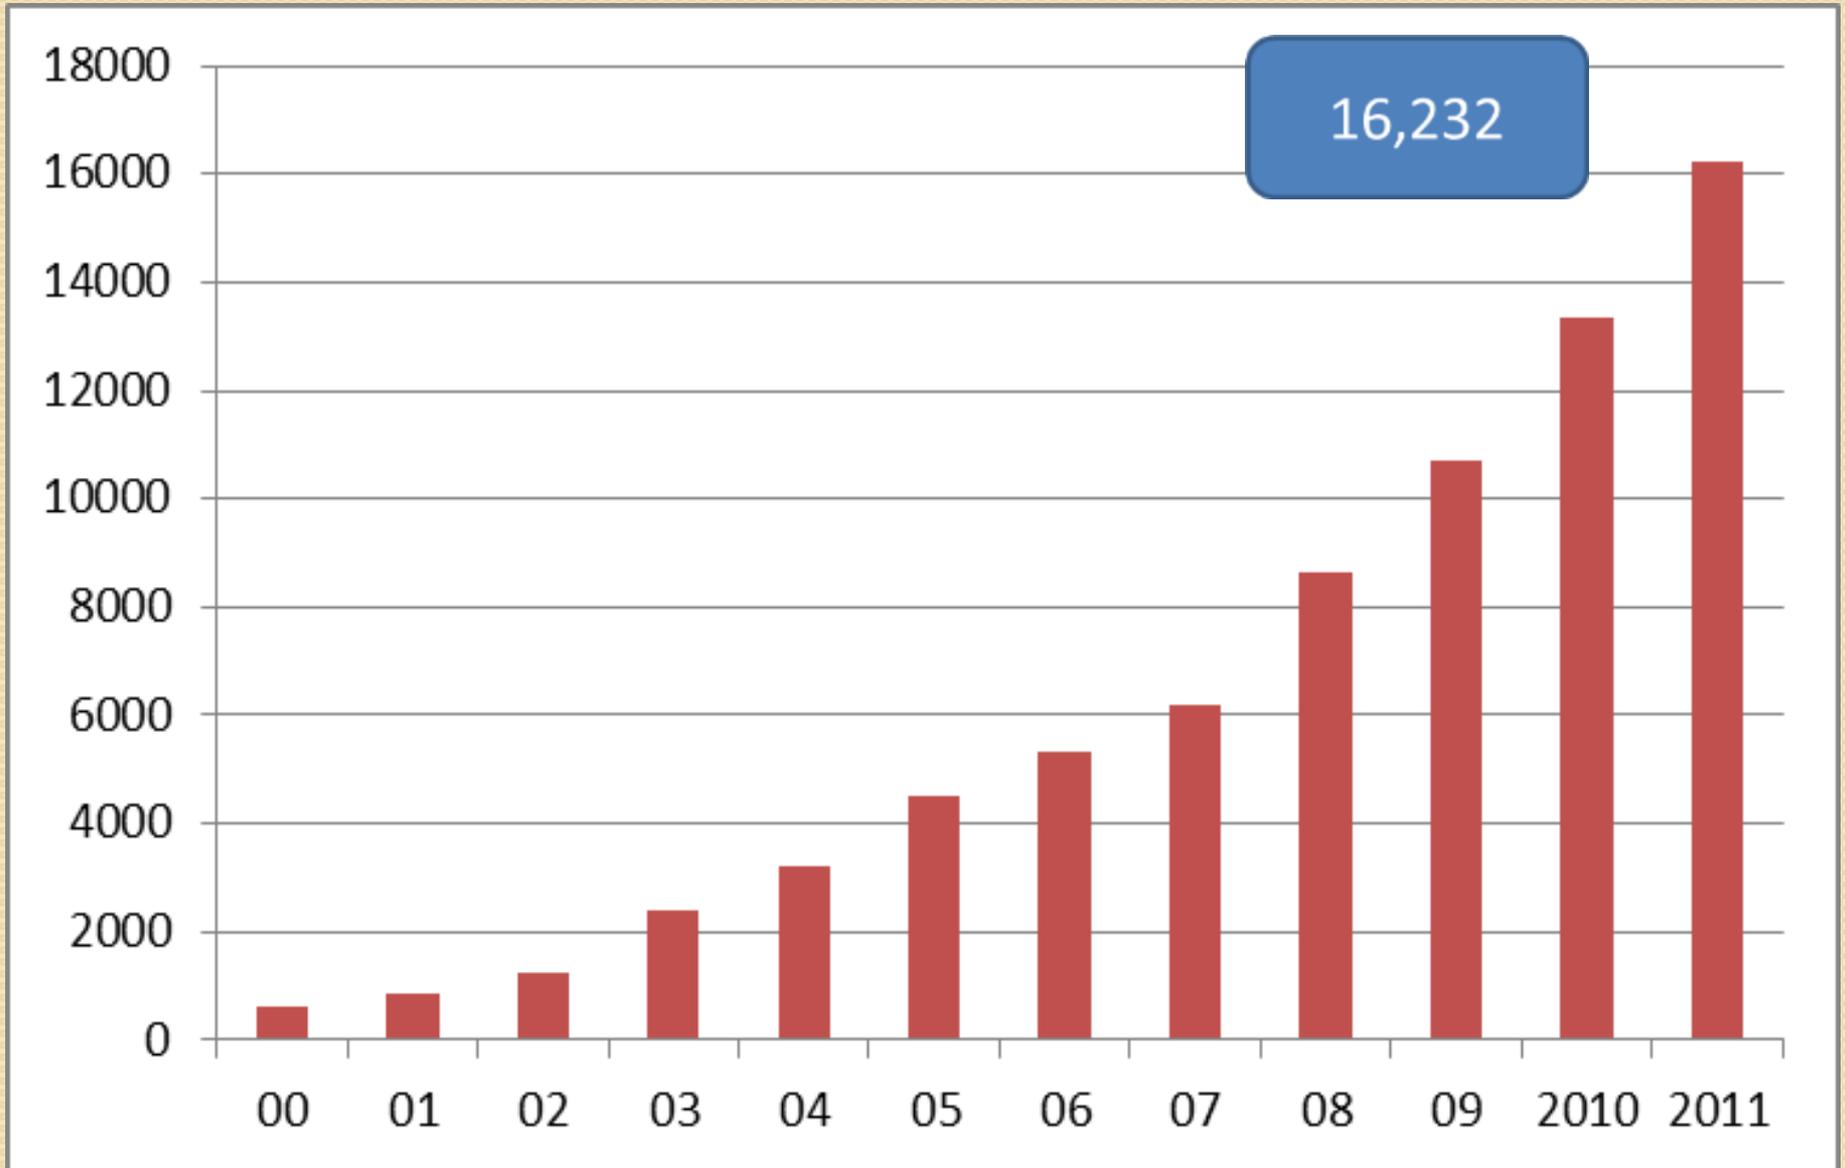

# Six Basic Recommendations for Implementing PBIS

- Never stop doing what already works
- Always look for the smallest change that will produce the largest effect
  - Avoid defining a large number of goals
  - Do a small number of things well
  - Define what you will do with operational precision
- Do not add something new without also defining what you will stop doing to make the addition possible.

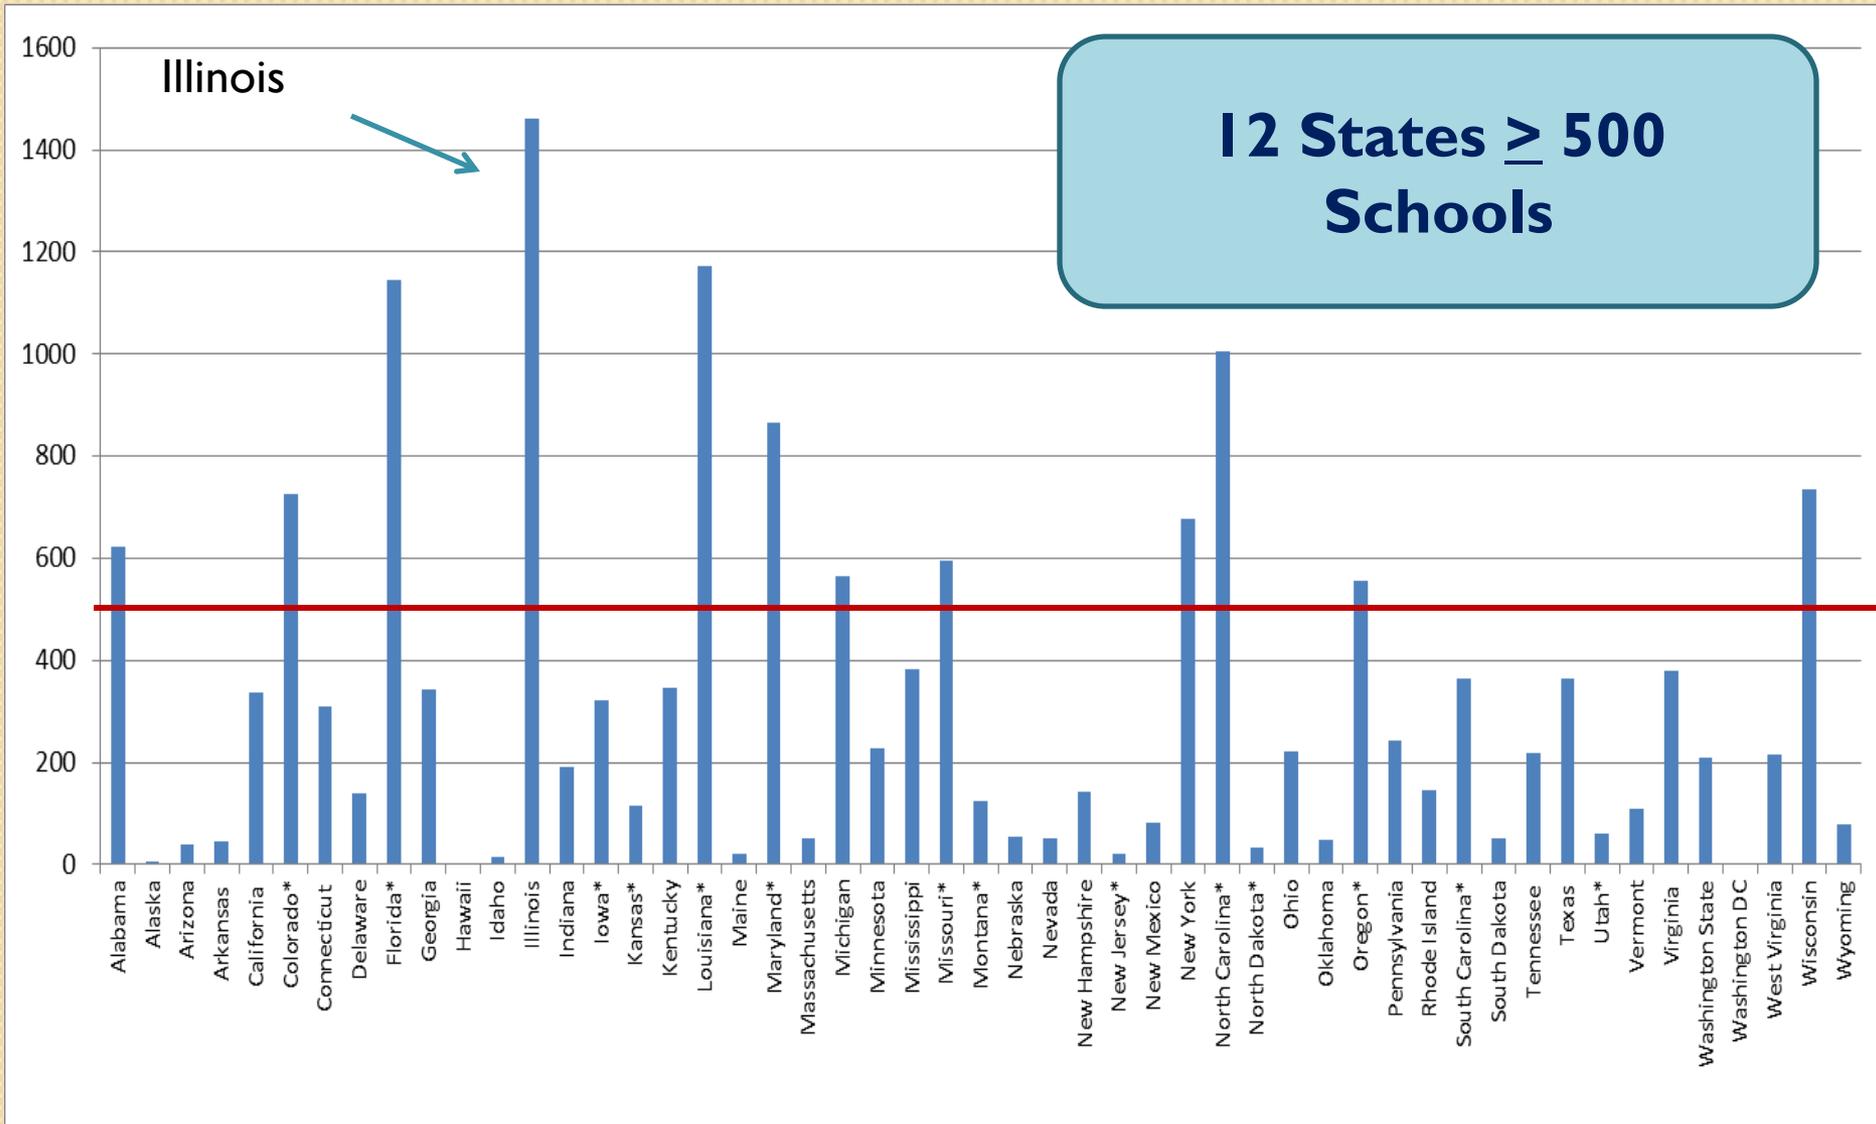

# Six Basic Recommendations for Implementing PBIS

- Collect and **use data** for decision-making
    - **Fidelity data**: Are we doing what we said we would do?
    - **Impact Data**: Are we benefiting students?
  - **Adapt** any initiative to make it “fit” your school community, culture, context.
    - Families
    - Students
    - Faculty
    - Fiscal-political structure
  - Establish **policy clarity** before investing in implementation
-

# Count of School Implementing SWPBIS by State August, 2011

# Randomized Controlled Trials Examining PBIS

- Reduced problem behavior
- Improvements in academic achievement
- Enhanced perception of organizational health & safety
- Improved school climate
- Reductions in teacher's reports of bullying behavior
- Improve social emotional functioning
- Improved teacher effectiveness

# Using PBIS to Achieve Quality, Equity and Efficiency

- **QUALITY**: Using what works; Linking Academic and Behavior Supports
  - North Carolina (valued outcomes)
  - Michigan (behavior and literacy supports)
  - Commitment to Fidelity Measures
  - Building functional logic/ theory/ practice (Sanford)
- **EQUITY**: Making schools work for all
  - Scott Ross
  - Russ Skiba
  - Vincent, Cartledge, May & Tobin
  - Bully prevention
- **EFFICIENCY**: Working Smarter: Building implementation science into large scale adoption.
  - Using teacher and student time better.

# Stages of Implementation

Implementation occurs in stages:

- **Exploration**
- **Installation**
- **Initial Implementation**
- **Full Implementation**
- **Innovation**
- **Sustainability**

2 – 4 Years

# Lessons Learned

- Maintain a clear and unrelenting focus on **student outcomes** (academic and social)
- Select **research-validated practices** that provide a **multi-tiered system of support**.
- Use data for decision-making to assess BOTH **fidelity and impact**.
  - Assume continuous improvement is essential for sustainability
- Build the **systems** (team structure, policies, data sources) that support high fidelity implementation
- Invest in **durable, large-scale** applications of effective practices.

# Part 3: Merging SWPBIS and SEL

# Merging SWPBIS and SEL

## Common Features

Commitment to school-wide social culture

Commitment to building personal competence of students

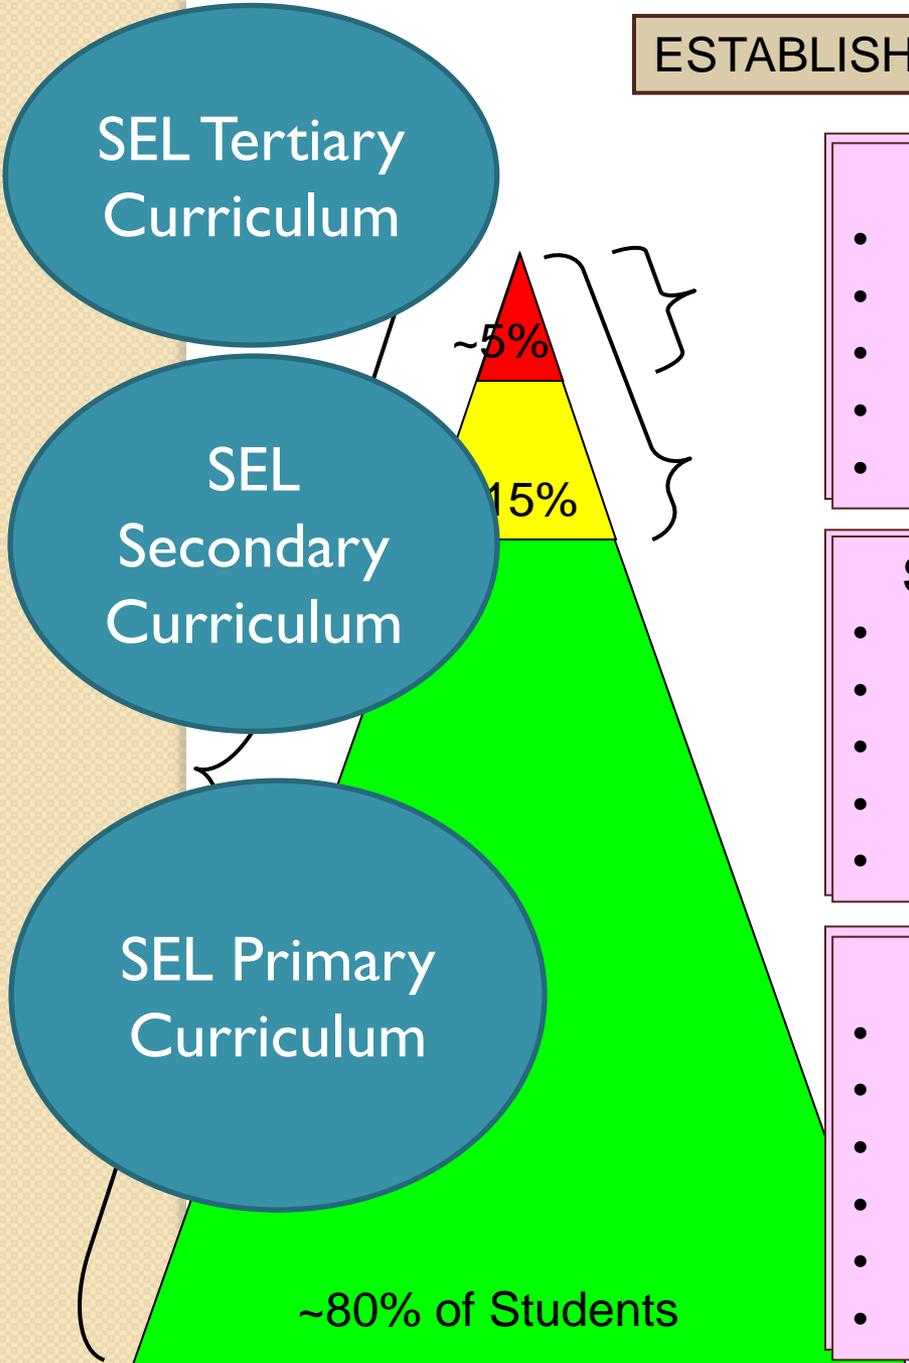

Linking social development with academic success

# Merging SWPBIS and SEL

- Using SEL curricula to define core social expectations for schools
- Using SEL framework for elaborating a multi-tiered system of support
  - SEL for all
  - SEL for those who need a bit more
  - SEL for those students with intense needs.
